

Mihail Petrov

June 22, 2019

E-mail: trisha.petrov@gmail.com, m.petrov@metalab.ifmo.ru

Born: 06 October 1986, Tbilisi, Georgia

Citizenship: Russian

Telephone: +79219781131

Skype: trisha_outdoor

Google scholar profile

Education

- **PhD, condensed matter physics/photonics (with distinction):** 2009-2013, double-PhD program.
University of Eastern Finland, Joensuu, Finland
Ioffe Physical Technical Institute Russian Academy of Science, Saint-Petersburg, Russia
Thesis title: "Glass-metal nanocomposites for photonics applications"
- **MSc, solid-state physics (with honours):** 2007 - 2009, Saint-Petersburg State Polytechnic University, Saint-Petersburg, Russia, solid-state physics
Thesis title: "Electric Field Modification of Glass-Metal Nanocomposites"
- **BSc, solid-state physics (with honours):** 2003 - 2007, Saint-Petersburg State Polytechnic University, Saint-Petersburg, Russia
Thesis title: "The mode analysis of asymmetric microdisk resonators containing InAs quantum dots"

Current position

- **Faculty fellow, research scientist, *Informational Technologies, Mechanics, and Optics University (ITMO University)***, Faculty of Physics and Engineering, Centre of Nanophotonics and Metamaterials, Saint-Petersburg, Russia
<http://metalab.ifmo.ru/>

Research interests

Theoretical nanophotonics and plasmonics, all-dielectric photonics, nonlinear photonics, optical forces and manipulation, quantum optics and nanophotonic, metamaterials and metasurfaces.

Professional skills

Numerical and analytical modeling of light propagation and interaction with nanostructures media. Modeling in COMSOL Multiphysics. Basic programming in Matlab, Mathematica, Maple, C++, Fortran 90 (IMSL)

Awards, Grants & Honours

Competitive research funding

2019	DAAD fellowship for academicians exchange, <u>individual</u>
2018 – 2019	Grant of Russian Foundation of Basic Research, <u>manager</u>
2017 – 2020	Grant of Russian Science Foundation, <u>chief investigator, co-manager</u>
2016 – 2018	Russian Foundation of Basic Research Fellowship Scholarship, <u>individual</u>
2016 – 2017	Swiss-Russian bilateral grant of Russian Ministry of Education and Science, <u>chief investigator, co-manager</u>
2017 – 2018	Travel scholarship of Academy of Finland, <u>individual</u>
2014 – 2016	Travel scholarship of Academy of Finland, <u>individual</u>
2013	Russian Foundation of Basic Research, travel grant, <u>individual</u>
2012 – 2014	Grant of Russian Foundation of Basic Research for young scientists, <u>manager</u>
2011 – 2012	Russian Ministry of Education and Science grant for PhD students,
2008 – 2010	Grant of the Foundation for Assistance to Small Innovative Enterprises, <u>individual</u>

Academic awards

2017 – 2018	Foundation of Theoretical Physics Advancement Fellowship, Russia
2010, 2011	Awards of St. Petersburg Administration Science Committee for PhD students
2008, 2009	Awards of St. Petersburg Administration Science Committee for Master students

Teaching activities

• Current courses

- 2018 - present time. *Nanoplasmonics*. Master course at ITMO University. <https://physics.ifmo.ru//>
- 2013 - present time. *Introduction to Quantum Optics*. Master course at ITMO University and Saint-Petersburg Academic University. <https://physics.ifmo.ru//>

• Online courses

- 2019 Online course “Plasmonics: fundamentals and applications”, edX platform: <https://www.edx.org/course/plasmonics-fundamentals-modern-itmox-plasmx>
- 2016 Online course “Physics. Theoretical minimum” (in Russian only), Stepic platform: <https://stepic.org/s/vRZj0pRo>

• Previously taught courses

- 2005 – 2015: Mathematical Physics. Bachelor course at Saint-Petersburg State Polytechnical University. Practical classes and lectures.

- 2011: Light interaction with metal nanostructures. Special course for undergraduate students at Saint-Petersburg Academic University

- **Other teaching activities**

- Permanent popular lectures on physics for highschool students
- 2009-2012: Member of organizing committee of Russian student challenge on Computer Modelling of Nanostructures and Renewable Energy Sources (in Russian only): <http://nano.spb.ru/olymp/>

List of invited talks

- [1] M. I. Petrov, “Second harmonic generation from resonant dielectric and metal-dielectric nanoantenna”, Metamaterials Congress, 8-14 September 2019, Rome, Italy
- [2] M. I. Petrov, “Quantum transport and optical forces with spin-locked surface waves”, International School on Nanophotonics, Photovoltaics and Metamaterials 2019, 11-17 April 2019, Varadero, Cuba
- [3] M. I. Petrov, “Chiral light-matter coupling at nanophotonic interfaces”, Invited seminar at Langevin Institute, 05 December 2018, Paris, France
- [4] M. I. Petrov, “Non-plasmonic nanoresonators as a new multifunctional optical platform”, (plenary talk) Annual Sino-Russian Technical Universities Meeting, 22-25 November 2018, Guangzhou, China
- [5] M. I. Petrov, “Non-plasmonic resonant nanosystems for active photonics applications”, NanoMaterials Trends Workshop, 13-14 September 2018, Brescia, Italy.
- [6] M. I. Petrov “Light-matter interaction and optical forces mediated by surface guiding waves: the effects of spin-locking”, Invited seminar at Okinawa Institute of Science and Technology, 16 January 2018, Okinawa, Japan.
- [7] **M. I. Petrov**, V. E. Babicheva, K. V. Baryshnikova, P. A. Belov. “Reflection compensation with all-dielectric metasurfaces”, COMCAS 2017, 13-15 November, Tel-Aviv, Israel

- [8] **M.I. Petrov**, N.A. Kostina, A. Ivinskaya, P. Ginzburg, A. S. Shalin, S. Sukhov, Surface plasmon polaritons for opto-mechanical control of nanoparticles, SPIE: Optics+Photonics, August 6-10, 2017, San Diego, USA
- [9] A. Andryieuski, **M. Petrov**, A. Lavrinenko, S. Tretyakov. Understanding of increased diffuse scattering in regular arrays of fluctuating resonant particles, The SPIE Optics+photronics conference, August 9 - August 13, 2015, San Diego, USA

Scientific visits and seminars

- December 2018: visiting professorship at ESPCI, Langevin Institute, Paris, France. *Prof. Remi Carminati group.*
- January 2018: Okinawa Institute of Science and Technology, Okinawa, Japan. *Prof. Sile Nic Chormaic group.*
- August 2016: Australian National University, Canberra, Australia *Prof. Yuri Kivshar group*
- October 2015: Fresnel Institute, Marsielle, France. *Dr. Nicolas Bonod group*
- September 2014: Aalto University, Helsinki, Finland. *Prof. Sergey Tretyakov group*
- June 2013, Martin–Luther–Universität Halle–Wittenberg, Halle, Germany. *Prof. Gerhard Seifert group*
- April 2012: Rochester Institute of Optics, University of Rochester, USA, *Prof. Robert Boyd's group*

Administrative activities and academic services

- **Head of Bachelor program** on Fundamental and Applied Physics at Faculty of Physics and Engineering, ITMO University
- **Mentoring:** since 2016 there have been 4 MSs and 2 BSc thesis defended under my supervision. Currently there are 2 PhD students under my co-supervision.
- **Secretary of Summer School** on Nanophotonics and Metamaterials: annual summer school for Master and PhD students held at ITMO University <https://school.metalab.ifmo.ru>
- **Program committee member** of special section on Optical Forces and Manipulation at MetaNano conference (2018, 2019), <https://metanano.ifmo.ru>
- **Reviewer** of international research journals: Optica, ACS Photonics, Nanophotonics, , Journal of Optical Society of America, Scientific Reports, Optics Letters, Physics Status Solidi B, Photonics and Nanostructures, and others
